## Connecting with a TV

- A** Method 1. Connecting using a 3.5mm to 3.5mm audio cable. Select AUX mode.
- B** **C** Method 2. Connecting using an Optical/Coaxial cable. Select Optical/Coaxial mode and set the TV's audio output to "PCM".  
(More information on PCM page)
- D** Method 3. Connecting using an High speed ARC cable. Select ARC mode and set the TV's audio output to "PCM".  
(More information on PCM page)

## Setting "PCM" on your TV

When all cables are connected properly, and LED indicator lights properly, if there is no sound from tv or Sound Bar, please setting your tv as below:

1. Press "Menu" on the TV's remote control.
2. Press the arrow keys on the remote to scroll to "Audio Settings."
3. Press "OK" on the remote control.
4. Scroll to "Advanced Audio" and press "OK". Some televisions may not have an "Advanced Audio" menu and may list various audio settings instead.
5. Scroll to "Audio Output Mode" or "Digital Audio Output Mode" and press "OK".
6. Scroll until "PCM" is displayed as the current audio output.
7. Press "OK" to save the settings.

## Connecting a Bluetooth Device

- a. Press the "BT" button on the remote or press the "≡" button on the right side of Sound Bar, the LED indicator blinks blue.
- b. Turn on Bluetooth on the Bluetooth device.
- c. Select "BESTISAN SE05" and connect it. When your Bluetooth device is connected, the LED indicator blinks blue slowly.
- d. Play music files from the device, connected via Bluetooth, through the Sound Bar.

## Installing the Wall Mount

1. Use a tool to drill 2 holes in the wall, make sure the size as shown in the picture.

2. Put the plastic into the hole and screw in the screw, as shown in the picture.

Sound Bar

3. Finally fix the Sound Bar on the wall.

## Troubleshooting

**If you have a problem with your Sound Bar, there is quick simple solution, first make sure:**

- The cables between Sound Bar and input devices are securely connected, the power adapter is also connected to a working power source.
- The adapter LED indicator is lighting, and the LED indicator is lighting in the middle of Sound bar.

### **No sound or crackling noise**

- Check if all cables are connected properly.
- Press Mute on the remote to ensure the Sound Bar is not muted.
- Press Volume+ on the remote or the right side of your Sound Bar.
- Make sure you have selected the right input source on your remote, and the LED is lighting accordingly.
- If using Bluetooth, check if the sound on your device is under minimum volume.
- If using Optical, check if your device (TV/Cable Box/Projector/etc.) audio output set to PCM or turn the Dolby/dts off.
- When using cable connection, make sure your device has audio output port (not input).

### **Remote isn't working**

- Check if the battery is installed properly with power.
- Check if the signal of the receiver is covered by something.
- Contact your retailer for assistance.

### **I hear buzzing or humming**

- Ensure all cables and wires are securely connected.
- Connect a different source device (TV, Blu-ray player, etc) to see if the buzzing persists. If it does not, the problem may be with the original device.
- Connect your device to a different input on the Sound Bar.

### **Bluetooth can't be connected**

- Check if the Sound Bar is connected with the third Bluetooth device.
- Be sure that there are no solid obstructions between the Sound Bar and source device.(within 30 feet)
- Reboot the Bluetooth and connect again.

### **Hear echo when watching TV**

- Setting your TV audio to External Speaker.
- Mute the TV speaker.

### **Have other questions?**

- Please contact with your retailer for assistance.
